

Bellevue Farmers Market 2024 Market Money Guide

NEW in 2024: all market monies will be applied as credits to each vendor's Manage My Market account and disbursed on a monthly basis by mailed check or direct deposit on or near the 15th of each month. Vendors will still need to include their market money totals as part of their gross sales reporting for each market day, but they will not be applied towards stall fees as in prior seasons.
